

XINFO

TWS for z/OS

As a user of TWS for z/OS, you know how important this system is for planning, automation, and control of your batch processing. With perhaps thousands of jobs running every night, TWS for z/OS is critical to the completion of your batch production.

However, as projects grow, they become harder and harder to manage. When you are faced with problems, change requests or simply the need to have TWS for z/OS information available: XINFO is the only choice.

XINFO - The IT Information System

XINFO's PC client shows your TWS for z/OS data and displays the result in a way you have never seen it before. Applications, Operations, Special Resources, Variables, ETTs and much more as easy to understand tables, netplans and barcharts.

Use XINFO to distribute TWS for z/OS information, even via the Internet or Intranet. Use any Browser to access production information from anywhere at anytime. Visit our homepage and see an example: www.horizont-it.com.

XINFO

TWS for z/OS

Areas of Application

XINFO is the program for anyone who needs information about TWS for z/OS definitions or actual plan data.
