
Migrating to New TWS Releases

The files listed below must be adapted:

- SMARTJCL.CLIST(OPZXPARM)
- All TWS/SimJCL Jobs

TWS Parameters in OPZXPARM

The following parameters have to be modified in CLIST(OPZXPARM):

```
/*-----*/
/* TWS DATASETS, SUBSYSTEM, VERSION */
/* OpzOVer TWS release */
/* OpzAdDs AD-VSAM file */
/* OpzWsDs WS-VSAM file */

TWS Parameter in "Old" Batch Jobs

All jobs that were generated by OPC/SimJCL before the modification of OPCXPARM have to be modified manually. For example, jobs that check the production JCL every day.

Migrating to New Control-M Releases

The files listed below must be adapted:

- SMARTJCL.CLIST(OPZXPARM)
- All CTM/SimJCL Jobs

Control-M Parameters in OPZXPARM

The following parameters have to be modified in CLIST(OPZXPARM):

```
/*----- */
/* controlM                                     */
/* MjvSDS   = schedule library                 */
/* MJVGLOBL = library and member of global parameters */
/* MjvCxvDS = DS with controlM variables       */
/* MjvList  = DS with controlM jobs            */
/* MjvJCL   = output JCLs with substituted variables */
/* MjvJlib  = File containing the names of joblibs */
/*----- */
